Journalists in Gaza risk their lives to bring the world news of life and death in Gaza. Reading and consuming news from Palestinian journalists can help you to stay informed.

The Committee to Protect Journalists (CPJ) reports that between October 7, 2023 and February 22, 2024, 88 journalists and media workers have been killed, including 83 Palestinian journalists, 2 Israeli journalists, and 3 Lebanese journalists. Additionally, 16 journalists were reported injured, 4 journalists were reported missing, 25 journalists were reported arrested, and journalists' family members have and continue to face threats, assaults, and killing. The President of CPJ stated that this period "has been the deadliest conflict for journalists that CPJ has ever recorded, in terms of documenting attacks on the press."
